PG High Conviction Fund

PG Investments

WHAT IS THE PURPOSE OF THIS UPDATE?

This document tells you how the PG High Conviction Fund has performed and what fees were charged. This document will help you compare the fund with other funds. PG Funds Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

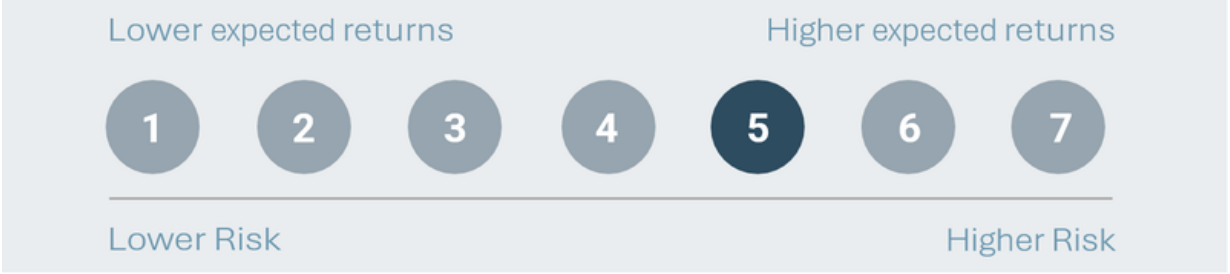

DESCRIPTION OF THE FUND

The fund's main objective is to achieve long-term capital growth by investing in a select group of New Zealand and Australian equities. This approach allows it to navigate market ups and downs while aiming for sustained growth over the long run.

TOTAL VALUE OF THE FUND	$690,735.35
THE DATE THE FUND STARTED	05/09/2025

WHAT ARE THE RISKS OF INVESTING?

Risk indicator for the PG High Conviction Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-profiler/.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 Sep 2026 (using market index returns prior to fund inception, in 05 Sep 2025, and the fund's actual returns since then). As a result of those returns being used, the risk indicator may provide a less reliable indicator of the potential volatility of the fund. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.
